

ONLINE HR RECRUITMENT

- ❖ SHILPA CHANDRA
- ❖ SAMIKSHA BHILARE
- ❖ MUGDHA ASGEKAR
- ❖ PREET GANDHI

Guide -> Prof.Mayuri Jain

- Our Human resources recruiters develop and implement recruiting plans and strategies designed to fulfil Aries staffing needs and the company's Online HR recruitment website aims at giving jobs to the best of the applicants both to the freshers and experienced through a series of mocktest.
- The traditional way of hiring students through colleges via campus placements is expensive and tedious. So by hiring candidates online makes it easier and cost-cutting.
- After the candidates have given the mocktest they are eligible based on marks above certain cut-offt and then they are called for an interview date.

INTRODUCTION

- Corporate recruiters and internal recruiters at Aries are responsible for leading the staffing efforts of a company and building a strong workforce that adds to the company's bottom line.
- Our Company Aries-Creating Opportunities will lead you through the home page and the candidates can register themselves in the registration page giving in their details. Once the registration is done and you're enrolled , you now can give the mock test. If you are experienced based on the company's criteria on the years of requirement one will be eligible. Finally after the given mock test , further give your details.

IMPLEMENTATION AND TECHNOLOGIES USED

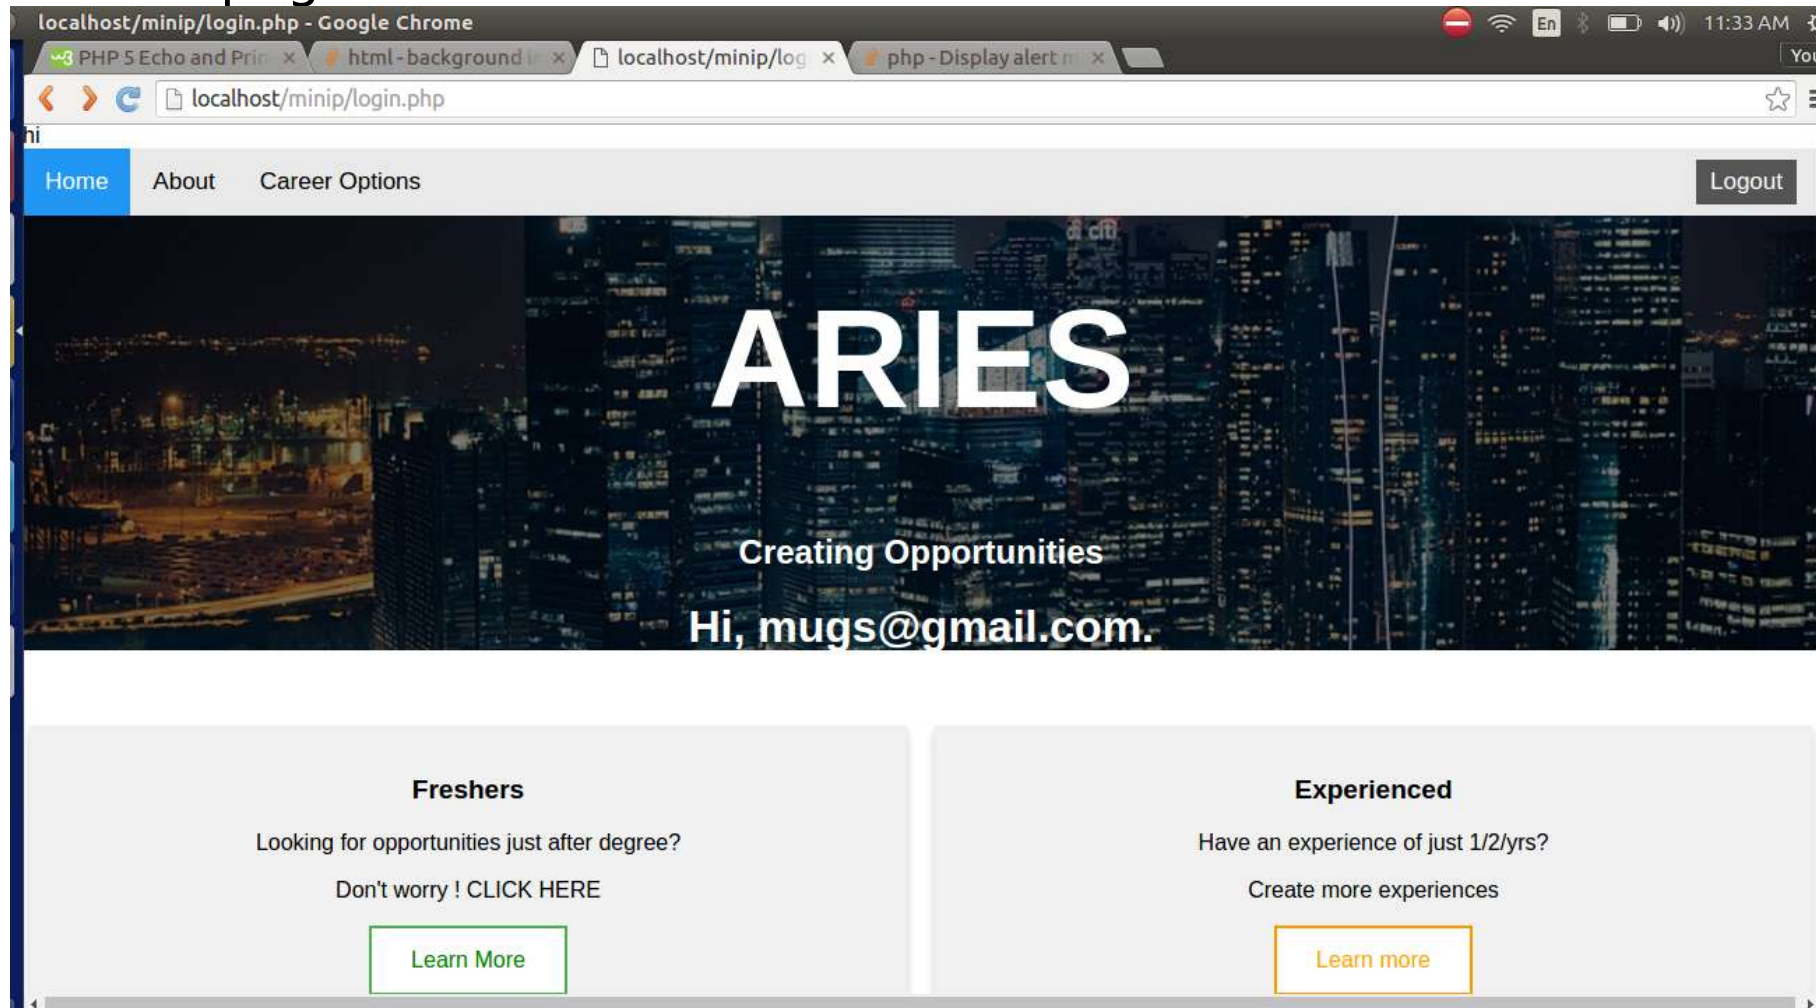

Software Requirements:

- Operating System : Windows, Ubuntu
- Technology : PHP
- Web Technologies : Html, CSS, JavaScript

AFTER YOU GIVE THE MOCK TEST

PROPOSED SYSTEMS

- This study lays out a framework for a new system to be developed and brought to the market for maximum use by web users where they can log on to our server and apply for the job at the company.
- This online application enables the end users to register online, register into our recruitment and know about our working and career opportunities in our established company. By just giving in the basic personal details one can register for online mock test on the site. The user will login via his email id and password one has given during the registration process.
- The company provides a wide range of opportunities and good working environment for the eligible candidates.
Our site will provide an user interface environment between the candidate and employee thus increasing the efficiency of the online recruitment system .
Once the candidate clears the mock test, they have to select the interview date and place from the options we provide.

AFTER YOU FILL THE DETAILS FOR INTERVIEW

CONCLUSION

Thus we have successfully accepted users id and password and provided them a platform to give mock test and on the basis of their score we gave them interview dates and the places of their choice.
